Brainwashing By Russians to Be Discussed

Robert William Lyon will tell the story of how 2 million young people of the world were exposed to Russian peace deception at the East Berlin peace Festival when he analyzes present day Europe in an illustrated lecture to be presented Monday at 7:30 p.m. in the Torrance High School Auditorium, as part of a free public forum series presented by the Torrance Evening High School.

His talk, "Both Sides of the Iron Curtain in Europe," is the third lecture in the forum series, "Russian Influence - Today and Tomorrow."

As one who attended the English and American group Red "cell" meetings at the Communist Peace Conference until it was suspected he was not a Marxist, Lyon gives an exciting account of the methods of the Communists for "brainwashing" the youth of the world.

His story of Europe includes illustrated slides filmed in England, Belgium and Holland.

Admission is free. Tickets are available at the door of the Torrance High School Auditorium or at the Adult Education High School. Each lecture of the series will give county institute credit for teachers.
